Database Technologies	MongoDB, MySQL, PostgreSQL, Elasticsearch
Cloud Technologies	AWS (S3, EC2, RDS), Google Cloud, Docker, Firebase
DevOps	CI/CD, Jenkins
Tools & Collaboration	Git, Agile (Scrum, Kanban), Jira, GitHub, Bitbucket

Professional Experience

- Credify Technologies Pvt. Ltd.

Senior Full Stack Developer

Ahmedabad, Gujarat

Sep 2023 – Present

 - Build user-friendly web apps with React.js, Angular, and Node.js, integrating scalable APIs and Razorpay/Zoop for financial features, boosting MongoDB and MySQL performance.
 - Deploy solutions on AWS (S3, EC2) and Docker with CI/CD pipelines, leading a team in Agile Scrum using Jira to hit deadlines.
 - Key Contribution:** Improved website speed by 30% with lazy loading, code splitting, and optimized API calls.
- Priya Softweb Solutions Pvt. Ltd.

Technical Analyst

Ahmedabad, Gujarat

July 2021 – June 2023

 - Create responsive, SEO-optimized apps with React.js, Angular, and Node.js, boosting user experiences.
 - Enhance functionality with Redux and third-party APIs (payment, authentication), deploying smoothly on Google Cloud.
 - Guide junior developers and lead teamwork, ensuring collaboration and cross-browser compatibility.
 - Key Contribution:** Cut API response time by 40% with optimized database queries.

Solution Analysts Pvt. Ltd.

Software Engineer

Ahmedabad, Gujarat

Sep 2020 – July 2021

- Built RESTful APIs with Node.js and Express.js, integrating MongoDB and Firebase databases.
- Collaborated with UI/UX designers to implement feature-rich, user-friendly interfaces using Angular.
- Automated deployments using Jenkins and Git for version control.
- **Key Contribution:** Migrated a legacy AngularJS application to React.js, enhancing scalability.

Hupp Technologies Pvt. Ltd.

JavaScript Developer

Ahmedabad, Gujarat

Aug 2017 – July 2020

- Developed dynamic and scalable web applications using JavaScript, HTML5, CSS3, Angular, Node.js, and React.js.
- Ensured code quality and seamless collaboration through effective use of GitHub and Bitbucket for version control.
- Debugged and resolved complex technical issues, enhancing application stability and performance.
- **Key Contribution:** Created a reusable component library with Angular and React.js, reducing development time by 20%.

Projects

Creditt+

- Led development of a Flutter, Angular, and Node.js financial platform, delivering instant personal loans and mutual fund services with a paperless process.
- Built backend APIs and coordinated the team, enabling salaried employees in India to access up to INR 35,000 in under 15 minutes.

Beer50

- Built an e-commerce web portal with React.js and Node.js, enabling customers to shop for beers effortlessly.
- Coordinated the team and delivered testing builds to the client as a Full Stack Developer.

Goally

- Developed an Ionic3, Angular, and Node.js app, enabling parents to customize their child's daily schedule with ease.
- Coordinated the team and kept clients updated with regular status reports as a Full Stack Developer.

iTable

- Developed a React.js, Node.js, and Ionic app and web portal, streamlining restaurant operations like orders, reservations, and waste food management for Android and iOS.
- Led the team to integrate real-time order tracking and multi-language support, deploying on AWS with MySQL as a Full Stack Developer.

The George

- Built a React.js and Node.js hotel booking platform for The George Lagos, integrating MySQL and WooCommerce for seamless room reservations.
- Developed APIs and customized payment gateways for USD/Nigerian currency, delivering updates to the client as a Full Stack Developer.
